Profile Summary

Computer Science undergraduate with a strong interest in Full Stack Web Development and Software Engineering. Experienced in building and deploying full-stack web applications using React.js, Node.js, Express.js, PostgreSQL, and Supabase through internships and personal projects. Passionate about developing scalable, user-friendly applications while continuously improving problem-solving and software development skills.

Education

Manav Rachna University — **Expected 2028**
B.Tech in Computer Science Engineering (Core) — *Minor: Data Science*

Tagore Academy Public School — **2024**
Class XII (CBSE) — *90.8%*

St. Anthony's Senior Secondary School — **2022**
Class X (CBSE) — *94%*

Experience

CodSoft — **June 2026 – July 2026**
Web Development Intern — *Work From Home*

- Developed two full-stack web applications using React.js, Node.js, Express.js, PostgreSQL, and Supabase.
- Built responsive user interfaces, secure authentication systems, REST APIs, and integrated cloud-hosted databases.
- Worked across both frontend and backend while following Git-based version control and modern web development practices.
- Strengthened practical full-stack development skills by building industry-oriented projects from scratch.

Projects

ElevateHire – Full Stack Recruitment Platform | *React.js, Node.js, Express.js, PostgreSQL, Supabase, Socket.IO*

- Built a recruitment platform with dedicated employer and candidate dashboards.
- Implemented JWT authentication, Role-Based Access Control (RBAC), secure resume uploads, and real-time messaging using Socket.IO.
- Developed a Kanban-based Applicant Tracking System (ATS), interview scheduling module, and hiring analytics dashboard.
- Integrated PostgreSQL (Supabase), REST APIs, and Docker-ready architecture following secure software engineering practices.

My True Companion – AI-Powered Learning Platform | *React.js, Node.js, PostgreSQL, Supabase, AI Integration*

- Designed and deployed an AI-powered educational platform providing personalized learning support and AI-assisted doubt solving.
- Implemented user authentication, personalized dashboards, responsive UI, and cloud database integration.
- Platform has been used by 20+ users, with improvements incorporated based on real user feedback.
- Focused on building an accessible, user-friendly, and scalable learning platform.

Technical Skills

Programming Languages: JavaScript, C, Java
Frontend: React.js, HTML5, CSS3, Tailwind CSS, Vite
Backend: Node.js, Express.js, REST APIs, JWT Authentication, Socket.IO
Databases: PostgreSQL, Supabase, MySQL
AI / ML: Generative AI, Prompt Engineering
Developer Tools: Git, GitHub, VS Code

Achievements

- Dean's List and VC List Award Recipient
- Maintained 9+ public GitHub repositories with 118+ GitHub contributions.
- Participated in multiple university and online hackathons.

Certifications

- MongoDB Java Developer Path – MongoDB University
- Google Cloud Skill Badge – CI/CD Pipelines Implementation
- Deloitte Generative AI Virtual Experience Program – Forage
